PAVILIONS

The perfect outdoor space.

Intended as a beautiful means of relaxation, pavilions have been an artistic part of western gardens and backyards for centuries. Whether used for summerhouses, religious temples, or simply a sweet piece of shade to catch an afternoon nap in, the tradition of this outdoor haven is long-standing.

Thankfully, this beautiful tradition has not been lost to the modern home. The pavilion is still a wonderful way to enjoy the fresh outdoors, while adding a classical piece of elegance to your space. Nothing will enhance the naturally attractive quality of your property more than this lovely gathering place. Add a few outdoor couches and chairs or fill the space with a table and some barbecuing equipment; either way, it is the ideal haven for your family and friends on a Sunday afternoon. Here, in the shade of the pavilion, you will be refreshed by the breeze and enamored with the dancing sunlight around you. There is no better place to rest, be rejuvenated, and prepare for the week ahead.

We know that every person has their own style and every area is unique. Because we want to ensure that you love every part of your pavilion, we give you the chance to custom build your own. Choose from our variety of sizes, colors, posts, and roofing options to create your perfect pavilion. Whether you prefer a sturdy wooden material or want something more convenient like vinyl, you are sure to find a style that will match your space and your personality.

WHY BUY A VINYL PAVILION?

Keeping up a tradition of beauty, vinyl pavilions are strong and durable while being very attractive. Not only does our vinyl look great, but it's environmentally friendly, too. Made from 50% recycled materials and produced using nonpolluting manufacturing methods, this product is a great reminder to keep our earth and our families as healthy as possible. To top it off, vinyl is basically maintenance free – a little mild soap and water is all it needs for a fresh, clean look that lasts for years.

- Durable
- No Warping, Cracking, or Splitting
